

# Medical Procurement of Ukraine

[mpu.gov.ua](http://mpu.gov.ua)

# About us

**Medical Procurement of Ukraine is the national agency that transforms the medical supply system to improve the quality of life of Ukrainians.**

we conduct purchases of medicines, medical devices and equipment under the centralized programs of the Ministry of Health of Ukraine (MoH)

we administer Prozorro Market medical catalogs

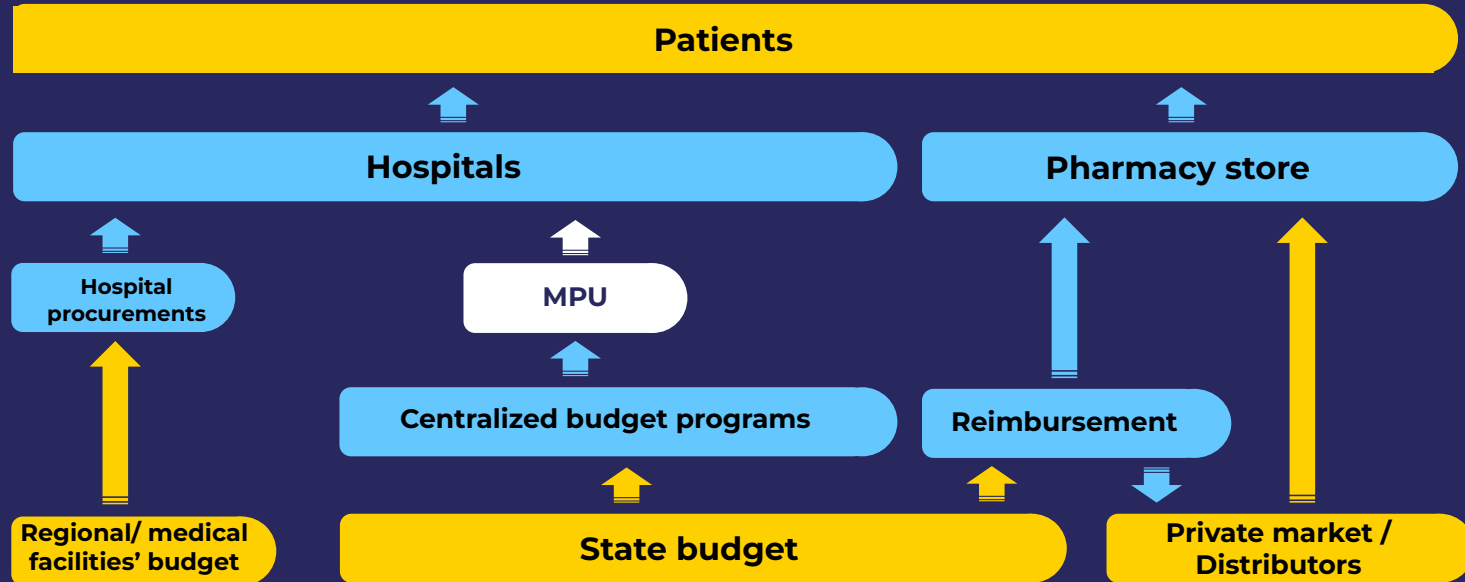

we buy medical products and equipment within the presidential initiative **United24**

we develop solutions for the state and citizens that ensure transparency at all stages of the medical supply process

# National medical supply system in Ukraine

# Procurement plans for 2026

**One of the procurement tools that simplifies the conduct of regional procurement.**

**Prozorro Market** is part of the public procurement reform and transformation of the healthcare system. **E-catalog** is an exemplary case of **quality** and **effective** use of budgetary funds during the full-scale war.

**The main tool for conducting standard purchases.**

# Contract execution

## Important points for market representatives

### + **Currency of the contract is exclusively UAH**

for non-residents MPU makes payment in selected currency equivalent (USD or EUR)

### + **Bank guarantee**

MPU implements advance payment based on a bank guarantee after signing of the contract

For residents, in case of procurement of equipment, payment is made exclusively to a Treasury account

### + **Delivery terms DAP/DDP\* Kyiv region**

this provision cannot be changed due to specific of state enterprise regulation

### + **Term of delivery**

MPU establishes the exact date of expected delivery at the time of the tender procedure based on the product's stocks, and it cannot be changed

### + **Date of delivery**

is the delivery of the products to the destination point and signature of Acceptance Certificate for the products (after visual or laboratory control if necessary)

### + **Shelf life 70%**

the general requirement for medicines is 70% of the total shelf life at the date of delivery, and for medical devices is 75% of the total shelf life at the date of delivery

### + **International pack**

for the military period, medicines registered in Ukraine can be supplied in original international packaging.

\* Under DDP terms, the scope also includes installation and commissioning of the equipment
