- Opening: 2017
- Production area: 29 000m²
- Employees: 1600

LEONI UA: Framework conditions

- For the last two years, the **stable operation** tendency, as well as slow, but **steady growth of businesses** is observed in the western part of Ukraine.
- **Labor market** in Ukraine is characterized by high demand for talents and shortage of skilled employees caused by migration and mobilization in the period of war.
- The share of **air alarm time** within planned working hours was 1% only in 2025 - no impact on production.
- **Energy. Heating. Water:** production secured by back up systems, if needed.
- Situation on all **EU borders** for transporting of goods with Ø1-2 days waiting time; (temporary negative impacted by introduction of Entry-Exit-System – EES by EU in Oct 2025)
